# About Us

Established in Jan 2005,

Empyrean Partners is already a partner of preference with some of the best known companies across the globe.

The company has consciously worked its way up, vertical by vertical. Starting off with the KPO industry, the company has built delivery competence in IT, Real Estate and Telecom, with its clients figuring among Top three companies in each of the industries.

Financial services and Retail figure among the next key sectors for EP. Our core differentiation lies in the comprehensive HR services offering ranging from technical/professional HR consulting, onsite project management, mentoring on performance and personnel management, customized orientation and training, pre-employment screening, to conflict resolution services. Our unique HR process engages each Consultant as a Focus employee.

This is effectively managed by having a distinct and specialized HR arm for our Consultants/employees, besides the regular one.
