

Enestee Engineering Limited

<https://www.indiamart.com/enesteeengineering/>

We, Enestee Engineering, are engaged in manufacturing, supplying and exporting Magnetic Separators, Industrial Cyclones etc. We also render Operation & Maintenance Service. We are an ISO 9001:2008 Certified Company.

About Us

Established in the year **2005**, we, "**Enestee Engineering**" is an emerging Engineering Company located at the geographical centre of India, involved in EPCC of Coal Washeries, Iron-ore beneficiation, cyclonation projects. Now, that the Company is reasonably established of its brand and in pursuit of widening our area of focus, the management is looking forward to create three prominent verticals such as

- Mineral beneficiation and its auxiliary system,
- Heavy engineering fabrication and erection related to Power industries and
- Process equipment & pressure vessel manufacturing & marketing including OEMs.

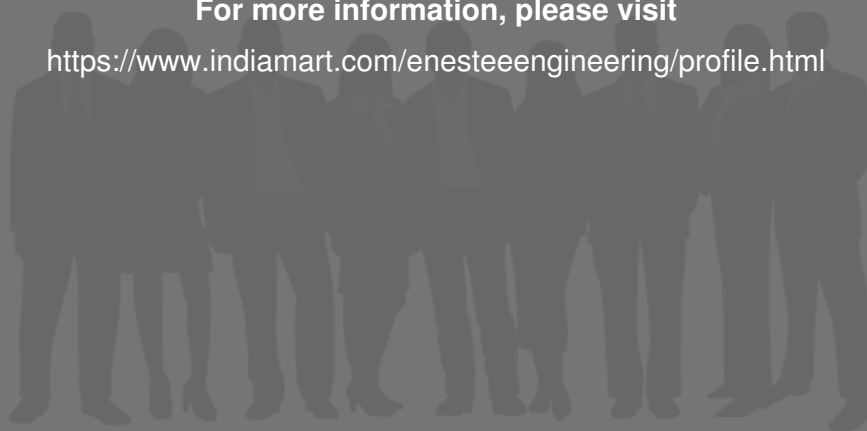

We are an ISO 9001:2008 Certified Company.

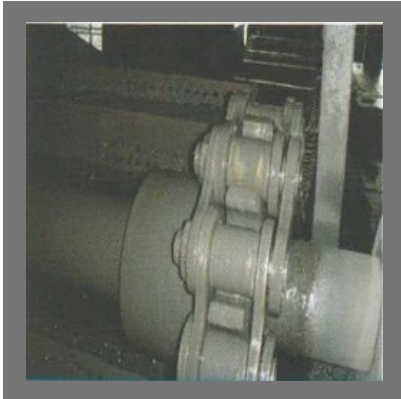

Enestee Engineering is a venture promoted by technocrats, from India and USA with a clear vision to promote, grow without diluting the core philosophy growth through "innovation, integration and sustenance". With a market boom in mineral beneficiation – more precisely Coal and Iron - the promoters decided to go out and create such facilities and market where solutions are provided end to end thereby creating satisfied customers. The venture has all necessary ingredients such as technology, knowledge, personals and finance.

The Company markets aggressively to its customers through competitive pricing and a high quality product. The company's largest single factor of success till date is...
