

Envero Care

<https://www.indiamart.com/envero-care/>

Envero Care is a renowned organization that provides services for Environmental Education/Training, Environmental Engineering Corporate Consultancy, Emission Monitoring Services, Computerized Design of WTP and Bio-Medical Waste Management Services.

About Us

Established in the year **2003**, we “**Envero Care**” are a consortium of professionals with diverse qualifications and trans-disciplinary exposure, engaged in providing expert & advisory services along with complete solutions in the field of environmental management and pollution control.

Ever since our inception, we have constantly striven to offer innovative, cost-effective and practical solutions for pollution control. These services are based on detailed knowledge about environmental legislation, engineering, science, project management and various other constraints.

We have a strong flair for conceiving, developing and applying "state-of-the-art" concepts and technologies for waste management. In this, we endeavor to approach problems from unconventional angle to device integrated solutions. Our expertise also lies in providing solar devices and equipment for water treatment.
