Deals in web and network security softwares.

## About Us

eSoft is an industry leader in providing Simply Better Network Security™ to small and medium-sized businesses.

Privately-held eSoft, based in the foothills of Broomfield, Colorado, has developed the award-winning InstaGate and ThreatWall security appliances, as well as network security software add-ons called ThreatPaks that provide Email and Web security. With over 20,000 appliances shipped to more than 40 countries, eSoft is providing network security to businesses in nearly every major industry, including small businesses, education, finance and health care institutions.

Powered by our Distributed Intelligence Architecture™ (DIA), eSoft's products provide deep-packet Firewall and VPN capabilities, as well as protection against the new breed of converged threats that combine spam, viruses, spyware and other malware into powerful, targeted attacks. eSoft Email and Web ThreatPaks provide comprehensive security with simple, yet flexible, configuration settings that enable you to customize the security protection for your business needs.

An innovator in the field of network security and subscription management, eSoft holds key patents related to delivering security services via the Internet. With the largest and fastest growing malware database, combined with our 24 hour a day Threat Prevention Team, eSoft provides the most rapid threat detection and response network available.
