Forbes Pro Water Solutions, a division of eureka forbes limited offers 360 degree water management solutions from point of entry to point of use for institutional, commercial and industrial requirements.

About Us

The taste of Purity has been associated with the brand **AQUAGUARD** for over two decades now. It is this commitment towards excellence in product quality and services that has made the products under the brand AQUAGUARD a name to trust and look out for when hygiene, safety and health are the crux of the matter. For over two decades, **Eureka Forbes Limited** has been promoting its institutional range of water purifiers and water coolers cum purifiers to the industrial and institutional clients with a high degree of customer satisfaction. All our products conform to the highest level of the manufacturing standards so that our clients enjoy the “**Safe and healthy**” environment using our water products. To take our mission beyond drinking water, Forbes Pro Water Solutions started offering customized total water and waste water treatment solutions. The customized total water treatment solutions are Membrane-based; UV based or based on other cutting edge technologies. They all deliver treated water suitable for diverse water utilization purposes and industrial process requirements. Waste water recycling systems incorporating membrane solution, sewage treatment plants, swimming pool disinfection solutions and other such systems ably complement these solutions. A team of qualified professionals with many man years of combined experience and a commitment to quality, who customize, execute and maintain projects for industrial establishments, residential...
