About Us

FAB Pharmaceuticals Private Limited was established in 2010. At FAB Pharma, our comprehensive line of medical supplies and services has long been recognized as the leading distributor of surgical and medical products. Customers or healthcare providers benefit from the breadth of our product offerings. They can also partner with us to leverage the depth of our experience and expertise to help improve overall business performance too.

FAB's vision is to create world class Health Care Products and emerge to be a global leader in offering unique and innovative services in Health Care in the stature of a visionary leader and to ensure stability, efficacy of the health specialty products are maintained. Managing distribution to meet the expectations of Clients. We have been spread all over India and have expansive reach in Maharashtra, Gujarat and West Bengal. We take pride to inform you that we have expanded ourselves not only in national market but also stepped in the international market, covering countries like, Srilanka, Bhutan, Nepal, Bangladesh, Brazil, Ethiopia, and part of Africa. We are in this trade for the last three decades and have given excellent results in our field.
