About Us

It's nice of you to take the time to get to know us better. Here are certain details about us that you might want to know We conceived the idea of introducing Designer Fans in India in 2010 in San Diego, USA when we saw designer fans put up in a restaurant and we could not believe that there was so much Value Addition that could be done on a simple FAN and how that would brilliantly impact the interiors of any area of a house, restaurant, bed room, living room or a porch. The design aspect of it was simply amazing and after passionate in depth study, we collaborated with one of the finest companies in the world to bring FANZART to your door step. "FANZART" was set up with the intention of filling the void for the HNI consumer market in home product space in India as well as for luxury resorts, clubs. There were high end Kitchens, Sofas, Furniture, Wall textures, Drapes, Artefacts' but the fans were the same old and boring, almost unnoticed. "FANZART" was established in India in 2011 and the first Flag Ship Retail Showroom was initiated in March 2012. The models were chosen, Designed and Developed to suit all Indian homes offering a variety from Vintage, Crystal, Classical, Handcrafted, Hand painted, Contemporary, Fans with lights which have CFLs, Halogens, as well as LEDs. Fanzart products provide a sophisticated gentle air flow with noise less performance.
