Fibro Tech Engineering Co.

<https://www.indiamart.com/fibrotechengineering/>

We are engaged in manufacturing and supplying a wide range of Industrial Vacuum Systems, Pressure Vessels and many other products. Made from quality material these products are widely demanded by the clients.

About Us

Fibro Tech Engineering Co. came into being in the year **2000** and carved a niche as the known **manufacturers and suppliers** of a wide range of **Storage Tanks, Blowers, Pressure Vessels, Industrial Vacuum Systems and Industrial Filters**. Our product range comprises **Leaf Filters, Nutsche Filters, Vacuum Traps and Vacuum Receivers**. The products offered by us are known for the features such as long life, high strength, durable, reliable, affordable, commercial, easy to use and many more. Our products are made from the material of superior quality, which is sourced from the known vendors of the industry. We are also offering **PP FRP Ducting** and **PP FRP PVC Lining services** at competitive prices. We keep prescribed quality norms in mind while manufacturing our range, so that customers can enjoy the services of best product range. Customers can avail our range at reasonable prices, within their budgetary constraints. With the support of **Mr. S. K. Saleem** our **Manager**, we have been able to carve a niche in industry. His knowledge, guidance and expertise have enabled us to carve a distinct niche in industry. He knows what are the trends prevailing in industry and how can we serve our patrons in an efficient manner. Our infrastructure is spacious enough and is efficiently equipped with advanced machines. With the help of these machines we are able to carry bulk manufacturing in minimum time period. We have segregated our...
