About Us

FortuneBits is a Software development and training company with satisfied clients. FortuneBits has been designing websites and Android applications professionally for years, and is very keen on personal service. I would describe FortuneBits as a fast learning generalist with a passion for remarkable design. Since its founding in 2012, FortuneBits has consistently been an innovative, solutions-oriented development firm. FB has expertise in social and economic development, governance, education, Web based management, and Mobile application development. Our functional areas of expertise include strategic planning, institutional strengthening, human capacity development, performance management and evaluation, and statistical, economic, and management analysis.
