We are one of the leading Manufacturers of Fiber Board and Paper Drums. Our light in weight products are durable and find application in packaging of menthol, dyes, chemicals and various other products in powdered form.

About Us

Established in the year 1999, "Gaurav Composite Containers" are one of the prominent manufacturers and suppliers of **Fiber and Paper Drums**. These durable drums are utilized for packaging bulk drugs, fine chemicals, textiles auxiliaries, dyes, food product and menthol in powdered form. Light in weight, our drums are in line with the IMDG code (UN-Approval from Indian Institute of Packaging). Our strict adherence to quality norms is evident from the fact that we are an approved suppliers of numerous ISO and multinational companies. We started our business activities in Thane by the name Quality Packaging. Initially, with the help of our sedulous professionals, we used to produce 100 drums per day. With our expertise in this domain, we gradually increased our production capacity. Today, we are successfully producing 1000 drums per day and 40,000 per month by the name of Gaurav Composite Containers. Situated at Wada, our state-of-art manufacturing unit helps us to fulfill specific needs of our clients. This unit is equipped with hi-tech machines and advanced equipment that help us in fulfilling ever increasing demands of our clients. Our mentor "Mr. Suresh R. Fartade" is a valuable and crucial part of our organization. His experience and sound knowledge has helped us in earning an unenviable position in the industry.
