About Us

GB Tools is an offering from G B TOOLS & FORGINGS LIMITED (formerly known as Ambika Forgings), which was established in 1977. Since its inception we have never looked back and have grown from strength to strength. No path is without hurdles and success shielders and so was the case with Ambika too. In 1982, our group was recognized as an "Export House" by the Govt. of India, a huge achievement in those days. G B TOOLS & FORGINGS LIMITED is spread over approx. 10 acres of land and has manufacturing facilities that use latest technology and best-in-class working standards to enable us compete effectively in the world market. GB Tools has become a name synonymous with brilliance in the world of hand tools, garden tools, wrenches, pliers and spanners. We lay special emphasis on producing industrial hand tools that are completely designed to provide you with quality par excellence. From modern techniques to modern tools at GB we try to inculcate all modern production practices to provide our clients with complete customer satisfaction. Our explicit range of products such as Sockets and Pipe wrenches undergo a thorough quality check and quality control processes in order to ensure complete value for money. At G B Tools, our team has qualified professionals to perform specialized jobs and ensure quality and efficiency to produce high quality Spanner, Wrench, Jack Plane, Plier, Vices, Hammer, Hacksaw, Screw Driver, and Tools Kit. Process rigour is followed and inspections carried...
