About Us

“Genesis Lifesciences (India) Private Limited” came into action in the year **2009** at **Pune (Maharashtra, India)**. We are one of the noteworthy **manufacturer, exporter, wholesaler and trader** of supreme quality **Disposable Hospital Products, Medical Equipments, Hospital Accessories, Laboratory Equipments and many more**. The vendors from whom we obtain these products manufacture them by utilizing high grade raw materials that result into supreme quality products that match up with the requirements of the patrons. Also, these products are checked on varied parameters under strict guidance of our experts and using various latest testing tools. Our products have gained vast fame among the customers owing to their affordability, user-friendly design and attractive look.

We are supported with a genuine vendor base that helps us offer the patrons with top quality products that are long lasting. They are backed up by experts who help them in manufacturing products that are not just the good in utility but design too. The latest machinery used by them is modernized with all the modern techniques in order to deal up with the latest developments. Taking into account the precise needs of our patrons, we provide them quality products that can last for long. Our range of products is provided to our patrons at industry leading rates, which makes it an excellent deal for all. Our team is divided into different units such as delivery,...
