About Us

Ever since its inception in **1996**, **GKC** has achieved consistent quantum growth year after year along with enhanced customer confidence and satisfaction. GKC has been in the forefront of adopting new technologies & advancements and has honed, over the years, multidisciplinary competencies. GKC today holds a strong pool of highly skilled engineers and state-of-the-art equipment to deliver infrastructure projects to public and private sector clients, in the scheduled timelines within the specified quality parameters. GKC is an Infrastructure Associate of choice for several key clients. This loyalty stems from GKC's commitment to Ethics & Quality, timely delivery and value engineering. Our client base comprises of Government departments, Public Sector Undertakings and eminent Corporates. The Company has now widened its geographical footprint to include international territories with presence in Africa and the Middle East.
