

DESTONER VACUUM TYPE

- Combined action of vibrating motion of fluidized bed creates separation of stones or any other impurities heavier than product.
- Pressure type destoner is economical & simple to operate.
- Vacuum type destoner ensures better air distribution and provides dust free working in the plant through totally enclosed aspiration system with cyclone.
- Controls of Feed, Air, Deck Elevation, Pitch, Speed facilities almost complete removal of heavy impurities from products in one pass only.

DESTONER PRESSURE TYPE

MODEL VD	CAPACITY KGS/HR	DRIVE H.P.	FAN H.P.	Overall Dimensions - App.mm		
				Length	Width	Height
VD-3	1000-1500	0.75	5	1600	700	1800
VD-4	2000-2500	1	7.5	1600	1000	1800
VD-6	3000-4000	1	10	1700	1300	1900
VD-8	5000-8000	1	15	1700	1700	2000
VD-10	8000-10000	2	20	2000	1800	2000
VD-12	10000-12000	2	25	2200	2000	2200
