

GRAVITY SEPARATOR PRESSURE TYPE

- Most perfected Gravity Separator working on the principle of vibrating motion and fluidized bed
- Pressure type model is economical Density Separator producing 3 to 5 Grades based on specific weights of products.
- Vacuum type model ensures most uniform air distribution resulting into much finer cuts in grading. It also provides clean working in the plant as dust is aspirated to cyclone.
- Easy to adjust controls of Feed, Air, Speed, Deck-Elevation, Pitch, Torque & Runoff permits highest degree of separation with best possible settings.

MODEL PG	CAPACITY KGS/HR	Drive Motor H.P.	Fan Motor H.P.	Overall Dimensions - App.mm		
				Length	Width	Height
PG-7	300-500	1	3/5	1600	1200	1400
PG-10	1000-1500	1	7.5/10	2100	1400	1800
PG-12	2000-2500	2	10/12.5	2500	1700	2000
PG-14	3000-3500	2	15/20	3000	2200	2400
PG-16	4000-5000	3	25/30	3500	2500	2600

GRAVITY SEPARATOR VACUUM TYPE

MODEL VG	CAPACITY KGS/HR	Drive Motor H.P.	Fan Motor H.P.	Overall Dimensions - App.mm		
				Length	Width	Height
VG-30	300-500	1	5	2000	1100	1600
VG-40	1000-1500	1	7.5/10	2400	1400	1900
VG-50	2000-2500	2	10/15	2600	1700	2100
VG-70	3000-3500	2	15/20	2900	2000	2300
VG-90	4000-5000	3	25/30	3200	2300	2500
