We have gained immense appreciation from the customers for our ability of manufacturing, exporting and supplying sturdily constructed array of Surge Protectors and more. We ensure products are as per the specific clients' desires.

About Us

GRS Industries is a name renowned for its technologically advanced products, reliable business dealings and providing cost effective solutions. The company was founded in **1980** as a sole proprietorship owned firm and is involved in **manufacturing, exporting and supplying** a wide array of **Lightning Protection System, Surge Protection Devices, Earthing Components, Lightning Protectors, Earthing Electrodes, Pit Covers** and many more. Each product is designed with perfection by our skilled experts and keeping the specific demands of clients in mind. In the development of above mentioned products, we utilize quality raw material, which enhance the durability as well as efficiency of products. Advanced manufacturing techniques are adopted to improve our manufacturing capacity and the existing range of products. Through this, we have been successful in accomplishing the upcoming customers' preferences. Apart from this, ethical policies, transparent dealings with customers and assurance to make timely delivery of the products are some other important factors, which have made us the reputed name in tough market competition. Our export markets are Saudi Arabia and Nigeria. Our all business tasks are performed efficiently under the guidelines of **Mr. Jeetendar Vinayakiya Jain**. He has helped us attaining an enviable position and gaining the trust of large customers with his excellent leadership qualities, administrative skills and sharp...
