Taj Swing Machine Co.

<https://www.indiamart.com/guruamarindustries/>

Manufacturing, suppling, exporting & trading an extensive array of Sewing Machines & agricultural implements. These are widely acclaimed for user friendly features like easy maintenance, heat resistance & dimensional accuracy.

About Us

Established in the year **1983**, we have become one of the distinct manufactures suppliers, exporters and traders of a vast range of Sewing Machines and Agricultural Implements. Further, we have successfully launched two new models of Taj Sewing Machines under the name and Style of TAJ-103K and TAJ-95T. We use sophisticated technology and machinery to engineer our range as per the international standard. These machines and implements are widely appreciated for features like heat resistance, corrosion resistance, dimensional accuracy and abrasion resistance. We are a quality driven organization and aim at providing quality range of machines and agricultural implements to our clients across the world. Our manufacturing unit is sprawl over a vast area of 6750 square foot and is equipped with advanced machines to offer products in compliance with the industry quality standard. Further, we are blessed with other units like quality unit, technical unit and warehousing unit that helps in carrying operational activities on time and also cut down cost of productivity. We are also involved in offering customization facility as per the clients' specifications. Under the proficient guidance of our mentor, '**Mr. R.K. Rana**', we have established ourselves successfully in the industry. His vast industry experience and knowledge have helped us in wining clients' trust and confidence in our range.
