About Us

Established in the year 2000, “**Gurutek Systems Private Limited**” is a professionally managed organization with over 11 years of experience in the security solution industry. We have a team of professional engineers ably assisted by a strong back-end to provide support to our clients through on-site visits, via telephone and via remote access. At Gurutek Systems Security is a passion and we have been providing **CCTV and access control** solutions for the past 5 years and we specialize in setting up **CCTV surveillance systems** which are more than a passive recording system. Our clients have the privilege of enjoying real time monitoring with e-mail alerts on their PDA for various exceptional situations like motion detect at night, tampering with camera, tampering with video feed cables etc. This means that you are alerted instantly to potential security breaches in real-time, wherever you are in the world. In addition, our skilled team of professionals can interface the **CCTV system** with various gadgets and devices like hooters, lights, electrical locks etc to provide a complete protective solution. We don't just put together a system from piecemeal parts, we provide you a well designed solution based on UK Home Department's guidelines which is guaranteed to give you peace of mind. Besides cameras and recorders, we take care of proper cabling and use a host of innovative media convertors to minimize the cost of cabling...
