

Hansa Exports

<https://www.indiamart.com/hansaexports/>

Hansa Export is one of the leading exporters of organic fertilizers. We offer 100% pure Neem Cake which is the best organic fertilizer. We are having distribution network in India, Germany and New Zealand.

About Us

Hansa Exports, established in the year 1999, is engaged in the export business of specialized range of organic fertilizers, which are widely used in agriculture sector and a vast array of minerals and form the major product for distinct industrial domains. We have our own mines in the state of Gujarat, India, wherein our research and other personnel continually work to search the untapped mineral resources. With their sheer dedication and continual R&D, we have explored a rare variety of Dolomite and Calcium Grits. This dolomite forms the major raw material for the steel industry and the Calcium Grits get widely utilized by major poultry farms. Continuing with our efficient export ability in the organic fertilizers and minerals sector, our company has established business associations with leading organizations, operating in this sector. This enables us to procure best varieties in the organic fertilizers, for the modern agricultural practices.
