About Us

High Risk Gateways was established on the year of 2011. We are a leading Service provider of IT Service, Hosting Service, Desktop Repair Service, Online Payment Gateway, Debit Cards Service, etc. We are offering our clients complete service solutions for Desktop Repairing Services. Our provided services assured our clients complete satisfaction about installation and maintenance of the desktop.

Online payment gateway services are used to pay or purchase online through any supportive cards. These cards may be credit card, debit card or master cards. Our payment gateway solution processing is so easy and suits almost all business models.

The exorbitant costs of e-commerce payment gateway solutions provided by premier financial institutions; the sheer volume of multiple software components.
