

Hi Tech Concrete Product

<https://www.indiamart.com/hitech-concrete-pipes/>

We manufacture and supply a quality assortment of Concrete Products that is fabricated using best quality factor inputs as per the international quality standards. These are extensively used in the construction industry.

About Us

Incepted at **Bengaluru, (Karnataka, India)**, “**Hi-tech Concrete Pipes**” is one of the leading names engaged in manufacturing and supplying a wide collection of **Concrete Products** in **Bengaluru, Karnataka**. As per their requirements, our clients can avail these in both standard and customized specifications. These are widely used in various industries owing to their optimum quality, utmost durability and rigid construction. Our clients can also avail from us **RCC Hume Pipes, Hume Pipes, Spun Pipes, Half Round Pipes, RCC Pipes, Concrete Pipes, Concrete Culvert Pipes** etc. We also manufactures **UGD (Under Ground Drainage) Pipes**.

Owing to above mentioned products, we have been able to curve a niche for ourselves in the industry. The talented team members of our organization not only assist us in manufacturing the offered range but also in delivering the same in timely manner. Further, for the manufacturing purpose of the above mentioned range, we have established a hi-tech infrastructural facility within our organization. We are been able to stay ahead of our competitors due to the farm industry knowledge and strategies of our promoter, **Mr. Arvind**. His futuristic visualization has enabled us to foresee the market changes with respect to the demand of our clients and accordingly, helped us adapt to the transforming business scenario.
