About Us

Home Interiors India which has been in the field of interior design, architecture, consultancy services, project management, services integration and turnkey solutions for the past many years. We take care of all your requirements from layout planning, design, detailing and graphics to complete execution of the works. We give you design presentations on the same, thus enabling you to completely visualize the project in it's entirety before implementation. Home Interiors India has been involved in this field since 1988 and has designed / managed numerous prestigious interior, architecture & related projects for various multinationals, corporate and successful individuals, in India and abroad. Inspired by the skills and creativity of the various craftsmen around the world, an interior expression was launched with the sole intention of putting space to better use and to enhance the quality of living by enhancing the beauty and utility. We take on any interior job as a new challenge and specialize in low cost, elegant, functional concepts and work on them with lightning speed, the most essential factor of any interior job. The clients trust us by unfolding their vision to us, and we bestow the trust reposed in us by converting their dreams into reality. Besides creating relationships we build faith, mutual trust and respect with not only our clients but also the design and building community. Our greatest happiness is when a client just smiles at us after the work is...
