About Us

Established in the year **2015**, at **Ghaziabad (Delhi, India)**, we "**MAXTRONIC AUTOMATION**" are known as the distinguished **Manufacturer and Service Provider** of the superior quality range of **Remote Control for Coolers, Battery Chargers, Solar Charge Controller**, etc. These products are manufactured under the management of experienced professionals using the best quality components and high-tech technology. The offered products are widely accredited for their features like high durability, sturdiness and high performance etc. We offer these products in numerous specifications to meet the correct needs of our valuable customers. Owing to our honorable business policies, client-centric approach, and competitive price structure, we have been constantly expanding our list of valued customers. We are also offering Design & Development Services.

We have developed an advanced infrastructure facility that is spread over a wide area of land. We have alienated our infrastructure facility into diverse units such as manufacturing, warehousing & packaging, quality testing, research & development, etc. in order to maintain smooth and efficient workflow. This facility is equipped with the modern technology and machinery. Our infrastructure facility facilitates us to meet huge and urgent needs of our customers within the fixed time schedule. Also, the products that we trade are procured under the supervision of our...
