About Us

Incepted in the year **1998**, at **Chandigarh (India)**, we, "**HPG Systems**", are the most renowned organization engaged in **manufacturing, exporting, wholesaling** and **supplying** an impeccable range of **Aquaponics Multi Parameter Kit, Flame Photometer, Microprocessor Lab Equipment, Temperature Scanner, Temperature Controller, Temperature Indicator, Online pH Meter, Flow Totalizer, Electrical Isolator, Chlorine Meter, Online Conductivity Meter, Online DO Meter, Level Controller,** etc. fulfilling the requirements of industrial sectors. Being an **ISO 9001:2008** certified, the entire range of products offered by us is dedicatedly manufactured by making use of excellent quality raw material and advance technology in the production process. These products are appreciated for their features like low maintenance, robust structure, low maintenance cost and longer life. These machines are made from best quality raw material and modern technology in compliance with the industrial standards. Available in various dimensional specifications and capacities, these are extensively used in several industry applications.

We have an ultra modern infrastructural facility to carry out all the activities in a systematic manner. This unit is divided into different sections like manufacturing, quality testing, warehousing and administrative section. Our infrastructure is handled by a team of professionals to look after the systematic and hassle...
