We are counted amongst the known manufacturers and exporters of the wide range of chemicals. Efficiently formulated by using accurate composition, our range has found wide application in major areas.

## About Us

Incorporated in the year **1977**, we **Indian Muds & Chemicals**, have uniquely positioned ourselves as the prominent **manufacturer** and **exporter** of an exceptional quality assortment of Ceramic and Lost Circulation Material. Offered products range consists of Mineral Ores, Weighting Agents, Bentonite Powder, Cane Fiber and more. To prepare these materials, we use high-quality components. Apart from this, these ceramic and lost circulation materials are admired due to their features like the leak-free packaging, and long shelf life. These products are prepared under the strict supervision of our professionals and demanded by our customers for their pocket-friendly price and quality. Also, our professionals are divided into a number of units. In addition to this, the offered range is provided at the most reasonable rate possible. Also, to keep standards of the quality, our professionals also check these ceramic and lost circulation materials on different quality parameters. The valuable guidance of our mentor **Mr. SM Shetty** helps our team members to gain insight into the challenging industry. Backed by industrial expertise and deep knowledge, we have attained a dynamic position in this sector.
