About Us

Integrated Language Solutions was founded 15 years ago, not as another translation company, but with a unique concept – to provide a comprehensive solution for all language-related requirements as a result of the surging demand for high-quality language services in India.

What makes us different is our ability to address diverse customer needs and deliver an integrated, one-stop solution. We offer local operations and global services. We have helped businesses address their greatest challenges – to reduce the complexity of managing multilingual content across different technological platforms, and overcome language barriers to improve their performance, maximize their revenue and accelerate global growth.
