# Jai Hind High Vacuum Pump

<https://www.indiamart.com/jai-hind/>

Our organization supplies wide range of rotary vane type vacuum and diffusion pumps, sourced from reliable vendors of the industry. We also provide complete backup services of annual maintenance and materializing plant services.

## About Us

We, “**Jai-Hind High Vacuum Pumps**” are engaged in offering wide range of quality rotary vane type vacuum and diffusion pumps, that are procured from reliable vendors of the industry. As a well known suppliers of high performance oil sealed high vacuum pumps in direct drive and belt drive specifications, we also provide after-sales services to our clients. These services include annual maintenance and materializing plant services for the benefit our clients and their complete satisfaction. Our Direct Drive Pumps are known for their superb performance, micro finish, close tolerance for high efficiency, elegant appearance, robust construction, compact design and minimum weight. Fitted with in-built anti suck back device, quick oil changing arrangement and easy inspector through oil window, these vacuum and diffusion pumps are widely used in different industries. These vacuum pumps are applicable in neon sign manufacturing, research institute, process machinery and laboratory settings. Under the able guidance of our mentor **Mr. Bhabesh Mishra**, we have been able to carve a niche for ourselves in the global market. His in-depth knowledge and wide industry experience have helped us to cater to the exact demands of our clients with our after-sales services.
