## About Us

Incorporated in the year **2000**, at **Rajkot (Gujarat, India)**, we, “**Jay Engineers**”, are counted amongst the well-established **manufacturer** and **supplier** of **Pneumatic Engraver, Jewellery Machine** and **Jewelry Making Machine**. The offered range of products is manufactured under the guidance of a skilled team of professionals using high quality raw material procured from only reliable and certified vendors of the market with the aid of latest technology in observance with international quality standards. These products are appreciated by our clients due to their optimum performance, durability, sturdy construction, easy to use, less maintenance and long life. In addition to this, all these products are available in various sizes and dimensions in order to meet the variegated needs of our clients. Our well-established organization has developed a broad infrastructure facility that is spread across the wide area of the land. This is divided into various units like manufacturing, quality testing, R & D, warehousing and packaging and after sale support. All our infrastructural units assist us in meeting the bulk and immediate requirements of our clients within predetermined time schedules. With the support of a strong quality management system, we carry out the processes of procuring the raw material to the delivery of finished products in adherence to the set industry norms. We have segregated our infrastructure into...
