

Kay International Private Limited

<https://www.indiamart.com/kayinternational/>

‘In an industry full of competition, the ultimate winner will be the one who maintains the quality and not the price.’ Keeping this in mind, we offer a range of twin lobes blowers, tri lobe blowers, industrial filters and accessories.

About Us

Established in 1966, Kay International is the successful pioneer of the high-end industrial air blower sector in India. The manufacture of twin lobe rotary air blowers was the first milestone in our long rewarding journey so far. With the expansion of business and predictably, competitors, over the years, Kay International has been steadfast in its focus on being the leader and maintain the highest quality standards.
