**UPS systems, Power Electronics Equipments & Solar Power Generating Systems.**

These systems are extremely reliable, eco-friendly, energy efficient, affordable and safe.

## About Us

Established in the year 1999, **Kenisha Electronics** is one of the leading suppliers of a wide range of power backups, controls, power supplies, modular power supplies, light up power supplies and charging systems. Our comprehensive product range includes **online sine wave UPS systems, inverters, C.V.C.F. systems, servo control voltage stabilizers, and domestic sine wave inverters**. Furthermore, we also offer **lift UPS systems, battery chargers, isolation transformers, batteries, power supplies and harmonic equalizers**. Our range is appreciated for quality attributes such as reliability, cost efficiency, and safe usage. Since our inception, we have concentrated our time & resources in identifying power failure possibilities and offering total power backup solutions for our customers. Our endeavor has always been to provide 'uninterrupted clean power solutions', improve the power quality, boost product performance, and benefit the environment. For this, we procure our products from some of the most trusted vendors in the industry such as SOCOMECS UPS and Streamline Power Systems Pvt. Ltd. **It is associated with Leading MNC & Indian UPS Brands.** Under the able guidance of our founder **Mr. Manish Deshpande**, we have been successful in carving a niche in the market. He holds extensive industry experience of 16 years in marketing of uninterrupted power solutions. Mr. Manish has his B.E. in electronics engineering...
