WIDMA - Special Purpose machine manufacturing division of
Kennametal India Limited

About Us

WIDMA - Special Purpose machine manufacturing division of Kennametal India Limited:- For more than three decades, WIDMA has been leading the special purpose machine tool industry in India, elevating it to the best global standards. Headquartered in Bangalore, with state of the art manufacturing plant, WIDMA partners with customers spanning diverse industries across the country and overseas. Who count on WIDMA for highly productive, world class total machining solutions to manufacture their most critical components. **End-to-End Metal Cutting Solutions - The WIDMA Edge:-** With WIDMA, one benefits from high quality, end-to-end metal cutting solutions, not just stand-alone machines. Offering an unmatched advantage by leveraging its close association with world renowned tooling brands and access to a global application database, besides the ability to design customized machines and tooling. The WIDMA value proposition is, thus, virtually unparalleled. A fact which is borne out by the enduring relationships that have been built with several of India's leading industrial names.

Designed to Excel:- WIDMA believes that a well designed machine is half the job done. It has established a special process to ensure that the design meets customer's requirements with minimal iteration. To achieve this, a fleet of engineering experts first work closely with customer's teams to understand their needs completely. Then an in-house design team works with design softwares...
