<https://www.indiamart.com/khojengineering/>

We are the prominent manufacturer and exporter of exclusive range of V-Belt Pulleys, Agricultural Implementing Parts and more. We provide customized solutions to suit varied customers demand and specification.

About Us

Came into existence in the year 1972 at Jaipur, Rajasthan in India, **Khoj Engineering Company** is revered as one of the trusted names involved in manufacturing and exporting widespread range of **Agricultural Implement Parts** including **V-Belt Pulleys, Grinding Spare Parts, Thresher Parts & Crusher Manganese Plates**. Established as a Sole Proprietorship venture, we are managed by "Mr. Mohan Lal Sharma", whose strong industrial acumen has helped us carve a reputed position in the industry. Under the constant support, thorough knowledge and expertise of "Mr. Sanjay, our proprietor", we have transformed the existing range to suit ever-growing demands and specifications of our clients. Our product range includes **Bearing Pulley, Belt Pulley, Section Pulley, Reversible Plough, Cultivator Tine, Palti Plough Hub, Conveyor Gear, Plough Tyne, Toggle Bearing, Rod Spacer, Jaw Crusher Plates, MS Gear, Seed Drill, Thresher Rollers, Cutter Wheel and more**. Our products are widely accredited across Indian Subcontinent for its low maintenance, durability, easy operations, sturdy construction, reliability, rust-proof, high efficiency, smooth operation, fine finish. Product fabrication is carried on under the strict quality management and control. It involves the use of superior grade components and material that are procured directly from trusted vendors of the market. Moreover, the utilization of modernized machines and...
