## About Us

We are happy to introduce-Kids Gym which will be India's premier experiential learning and child physical development centre for kids ages four months through ten years. Each week, progressively structured classes and a positive learning environment create opportunities for children to try new things and build self-confidence, all with a grin that stretches from ear to ear. At Kids Gym, our environment is fun, but our purpose is serious. Our trained instructors have nurtured happy, confident kids through a range of programs including parent/child classes, gym, and basic sports skills development. In all of our programs, physical activity is a conduit for Three-Dimensional Learning. In every dimension, self-confidence and a proud smile are evident outcomes. As each success builds off the last, you will see noticeable improvements in your child's physical abilities and self-confidence. Your child will simply see Kids Gym as a place to play, laugh and make new friends. And quite frankly, that's fine by us. Our Kids Gym academy exists to further the happiness and health of our clients, to become friends and mentors for the students who come through our doors. Kids Gym Academy's mission-is to enhance the lives of children and their families by providing a place that is exciting, fun and safe, and a program of education, movement and gym in a non-competitive but challenging environment.
