We trained and researched in different areas to develop milky mushrooms, cds and books about mushroom cultivation and supply mushroom spawn we can provide consultancy services and mushroom buyback policy to our customers.

About Us

We KR MUSHROOMS. We started mushrooms industries in Vijayawada since 2007. we trained and researched in different areas to develop milky mushrooms. We trained 25 batches. They are successfully cultivating milky mushrooms in all over Andhra Pradesh we can provide information, cds and books about mushroom cultivation and supply spawn (we have our own research lab for spawn production) we can provide consultancy services and mushroom buyback policy to our customers. Now we tried to four through online. This is also we are the first introducers to online to provide training & guidelines. We are the largest producers & sellers of mushrooms in Andhra Pradesh. We are the own manufactures of seeds with a research lab to give good production for the customer. We have more than 100 customers we supply our seeds & buy back the mushrooms. We have more than 25 outlets which we one supplying our products in future we are starting chain base outlets through Andhra Pradesh. We provide the best training with 100% result oriented with greater yield perfection & satisfaction of the costumers.
