“Krish Global” is one of reputed and renowned manufacturers and exporters of a broad spectrum of Telecommunication Towers.

About Us

Located in the heart of Indian capital, New Delhi, we hold a giant stature as one of the leading Manufacturers and Exporters of a broad assortment of Telecommunication Towers. We further move a step ahead to offer Designing, Installation and Maintenance services to our national and international clients. Our products are designed in absolute harmony with international quality standards. **Moreover, we get our designs approved from IIT (Roorkee) and SERC (Chennai).**

We offer an accomplished solution to all your requirements of Telecommunication Towers and other services under single roof. We make use of hot dip galvanized steel to manufacture our range of Telecommunication Towers which are available in an extensive range of light, medium & heavy duty self-supporting angular, lattice, tubular & hybrid variety. Our engineers hold expertise in designing and fabricating towers having a height of 6 meters to 150 meters especially for rooftops & Ground Base applications. Our range of towers finds its comprehensive application in the world for GSM, Microwave, Radder & Navigational applications.

It is because of the able guidance and strong management skills of our mentor **Mr. Rahul Uppal** that we have reached the highest skies of success. His business acumen, in-depth knowledge and business policies have helped us in exceeding client expectations and ensuring their utmost satisfaction.
