

Krishna Engineering Works

<https://www.indiamart.com/krishna-engineering-works/>

We are one of the leading manufacturers and suppliers of a comprehensive range of Molds and Dies. These products are impeccably finished, dimensionally precise and durable in construction.

About Us

Established in the year **1993**, we, '**Krishna Engineering Works**', are involved in manufacturing and supplying an extensive range of **Molds and Dies**. These products are manufactured using highest grades of raw material and components, which are acquired from reliable merchandisers. Notable for their precise dimensions, durability, smooth finish and cost-effective nature, these products are assured of compliance with the established norms of the industry. These are widely used across a diverse spectrum of industries for making a variety of plastic molded products in various shapes and sizes. The advanced micro-precision engineering technology employed by us ensures that these products are designed for optimal functional life. The expert professionals employed by us are capable of maintaining all the aspects of the operations precisely for maximum operational efficiency. Our effective quality control regimen ensures that that every mold and die offered by us is assured of maximum tooling efficiency, durability and flawless application. The clients are further facilitated with different payment modes including D/A, D/P, T/T (Wire Transfer), Cash and DD & free samples. We are also capable of customizing the products as well as the packaging as per the clients' demands. Our commitment to quality is never compromised upon and it has enabled us to live up to our credible market position and set newer benchmarks. The...
