About Us

Kuhu Wooden Handycraft is established in the year 2015. We are the manufacturer, supplier of wooden statues and metal statues. Our products are processed by our professionals using high grade ingredients under the utmost conditions with the help of advanced technology. We have recruited a well experienced and diligent team of professionals that assists us in offering premium quality products to our clients. All our team members maintain close coordination with our customers in order to understand their specifications and instructions. We provide various trainings to help our professionals remain side by side with the newest developments in the industry and to help them further sharpen their process skills. Our quality testing unit tests the products on given parameters and ensures that the products conform to global quality standards. Our working team is highly experienced and holds in-depth knowledge supports us in meeting the varied demands of the clients. We have recruited our workforce on the basis of their experience, knowledge and academic records.

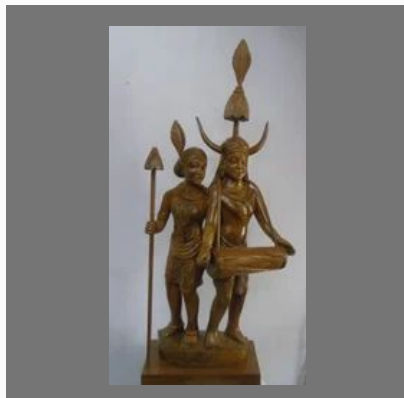

Since our establishment, our main objective is to maintain a consistent level of quality in the entire offered assortment. Quality is deeply engraved in all our business operations. Standing on the edifice of innovations, we always keep in mind that quality forms the backbone of any company. Our quality controllers strictly maintain the high quality standards of the product range by following the guidelines...
