**Kumar Plast, India** is a one of the distinguished manufacturers, traders and suppliers of high quality **Industrial Machinery** etc. These machines are widely used in various agricultural industries.

## About Us

We **Kumar Plast, India** have established our base in the year **2011** as the manufacturers, traders and suppliers of **Industrial Conveyor, Extruder Machine, Hydraulic Screen Changer, Pipe Plant, Vacuum Tank, Washing Plant, Mixture Machine, ABS Extruder Machine, Digital Panel, Industrial Cylinder, Aglo Machine etc..** All the offered products are used in various industries and are manufactured under the expert guidance of our skilled engineers. These offered products are quality checked on the industry norms and standards to ensure high grade quality to our customers. We believe in updating our technology from time to time and thus we keep on providing timely training sessions to our professionals to update them with the latest technology. Understanding the requirements of the customers, we have been providing our products at very nominal prices to achieve satisfaction and trust from our esteemed clients. In order to grow more in this industry, all our employees work as a team with a vision of 'Qualitative Production'. Moreover, we ensure timely fulfillment of customer demands with the help of a trained team of people who are involved in delivering the products in least possible time. In order to provide a faultless delivery, we are using best quality packaging to prevent them from any damage. **Mr. Arun Kumar** the proprietor of our organization has helped us to grow in this industry. It is because of his motivation and management...
