Leader Technology

<https://www.indiamart.com/leader-technology/>

We are a leading, highly productive company manufacturing screen printing machines, pad printing machines, toroidal coil winding machines and linear coil winding machines.

About Us

With the global market becoming highly price sensitive, we can help our customers maintain competitive edge, while providing efficient, reliable and cost effective products.

The company's wide range of new and innovative products are mainly designed to enhance the quality of printing and winding jobs and increase profitability.

Screen printing machines manufactured by us are capable of printing on paper, membrane labels, PVC film, plastic film, textiles, keyboards, circuit PCB plates, CDs, plastic boxes, carton boxes etc.

Pad printing machines manufactured by us are capable of printing on gift items, plastic components, electrical & electronic goods, home appliances, tools, cassettes, shoes, slippers, garments, plated & powder coated components etc.
