We introduce ourselves as a group of technocrats well versed in the field of Civil Engineering. Madhav Limaye Group was established on 11 th September 1997.

## About Us

We introduce ourselves as a group of technocrats well versed in the field of Civil Engineering. Madhav Limaye Group was established on 11 th September 1997, with the sole objective to cater to the various needs of the construction industry. We are now at such a stage where our team and the number of technocrats associated with us, empowers us to take on projects of any magnitude. This is because of the honesty, sincerity and dignity with which we approach our work and the confidence and faith our clients have shown in us.

The company has experienced and dedicated people who work as a team. The senior management of the company comprises of engineers, with extensive exposure to construction industry and technology, with valuable and relevant experience of practices in the country allowing for the correct blend of modern methods with prevalent and available materials. As a result we are confident to produce an end result to the exact requirement and complete satisfaction of our clients. The company has Associate Architects and Interior Designers, this helps us to develop any project from its conceptual stage. These services are backed by the latest software in industry easing presentation and quick adaptation to the client's requirements. Modern programming tools and software to schedule and monitor projects are implemented to enforce effective control over time and cost management.

Our strength lies in the fact that our entire team is firmly...
