About Us

Magendhiran Consultancy Services (MCS) is a leading player in the open source geospatial information and software services industry. At the leading edge of open source geospatial and information technology, MCS develops innovative solutions that integrate geographic information with niche business applications. MCS's success hinges on its unparalleled domain expertise, and its unique application of geospatial technologies. We have a deserved reputation for developing high quality end-to-end customized solutions, on time and to budget. By employing best of breed software, maintaining platform independence and vendor neutrality, and exploiting a wide range of data sources, MCS develops cost effective, customized solutions for its global client base. Our solutions and services help create operational efficiencies, facilitate improved decision-making and provide a competitive edge to our clients.
