<https://www.indiamart.com/manjushreeminerals/>

**We are one of the leading suppliers and manufacturer of a wide range of Mineral Stones, Mineral Powders, Natural Minerals, Industrial Minerals. These minerals are available in many grade and forms conforming to industrial standards.**

## About Us

Established in the year **2009**, we, '**Manjushree Minerals**', are engaged in the processing and supplying a wide range of **Natural Minerals**. The products we manufacture, are used in various industries, owing to their chemical and physical properties. These products are available in different grades and forms, and are processed in accordance with the international quality standards. Our organization is supported by a superior infrastructure, which makes us able to supply a gamut of natural minerals to the domestic and international clients. The products we offer to our clients, are thoroughly processed and free from impurities, ash content and moisture. While processing these minerals, we try to retain their original physical and chemical properties. We pack the natural minerals with secure packaging material, so that these are not damaged or contaminated during transit. Our reliable distribution channels, enable us to distribute the products across international markets within stipulated time frame. Our organization has gained positive market reputation in a very short period of time under the able leadership of our mentor, '**Mr. Bachhral Lunawat**'. His business acumen and strong industry insights have helped us to grow and carve a niche segment for ourselves in the industry. MANJUSHREE MINERALS, being newly established in the year 2009, is flourishing in leaps and bounds. Under the able guidance of the...
