***India's No. 1 Chemical Earthing Electrode & CNC Cutting Tool Solution Provider.***

## About Us

Established in the year **2012**, at **Faridabad, (Haryana, India)**, we **Mectech India** are engaged in **Manufacturing, Trading & Supplying of Chemical Earthing Electrode & CNC Cutting Tools etc.** The offered range is manufactured using high quality raw material and components that are procured from the reliable vendors of the industry. These products are precisely made by our professionals through advanced technology as per the defined quality norms. The offered range is widely acclaimed by our valuable clients for their fine finish, enhanced durability, sturdy construction and corrosion resistance. In order to meet the exact requirements of our precious clients, we offer the entire product range in different customized specifications as per details laid down by our precious clients. To ensure production of flawless products, we use innovative technology and efficient manufacturing process. We have constructed a state-of-the-art infrastructural unit that is equipped with all the hi-tech machineries and tools that are required to manufacture the offered range of products. With the help of the latest machines installed at our infrastructure, we are capable of producing the supreme quality products with an appreciable rate of production. We have divided our infrastructure into different sub-functional units such as manufacturing, quality-testing, sales & marketing, etc. in order to carry out all the business operations in...
