# Metro Power Solution

<https://www.indiamart.com/metro-power-solutions/>

**Metro Power Solutions** has emerged as one of the most trusted names in providing services in electrical installation.

## About Us

"**Metro Power Solutions**", over the time, has emerged as a respected entity in the industry of supplying an extensive range of **maintenance and installation services** for electrical motors as well as equipment. Our company thrives on its work-oriented team of technicians and engineers and its unique quality-oriented work process. Whatever we deliver, comes out as a result of persistent hard work and sincerity of approach.

Our services are not only time-saving, but also cost-affordable to a great extent. Our company presently offers a wide range of services such as Point Writing Service, Lighting Fixtures and Fans Maintenance, Street Lighting Service as well as Transformers Maintenance to name a few. All of these services are carried out by skilled workers in a stipulated time frame without any hassles or damage.

Whatever your requirement be, our company pays equal attention to all the details and requirements of the client before providing its solution. Our quality inspectors make sure that all of our services delivered to the clients are high quality works with no defect and better efficiency than any other counterpart. No wonder our company comes as one of the most preferred choices in the national as well as international market.

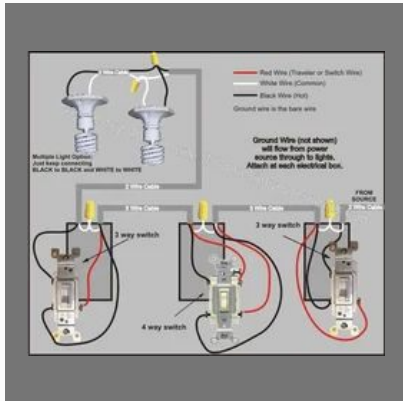

Our company's success story remains incomplete without mentioning about **S. K. Dagar**. He has not only guided our company with his vast experience and useful insights but also fuel fed...
