Microhard Services Pvt. Ltd.

<https://www.indiamart.com/microhardservices/>

Microhard is an independent software vendor & IT consulting company specializing in products and solutions. From its inception in 1995, we built a strong portfolio of expertise based on more than a decade of experience with helping customers.

About Us

Microhard Services Pvt. Ltd. has developed specific short and long term goals and strategies to remain successful in the industry. A major area of focus is the continuing expansion of the marketing and product presence in India, MEA and ASEAN countries. **Microhard Services Pvt. Ltd.** will continue to enhance the existing products, as well as develop new ones, with continued emphasis on growing the channel partner business and building upon existing relationships. **We are looking for queries from South India only. Microhard Services Pvt. Ltd. areas of focus:**

- Improve and enhance our current product offering for Linux market, as well as Red Hat compatibility
- Continued development of support for Microsoft based products
- Increase the number of nationwide channel partners and build upon the existing relationships
- Continue product training to improve product and industry knowledge level for all employees
- Hire software developers to improve product "go to market" strategies

Virtually every organization and every CIO, therefore, share a common and substantial agenda: reduce and manage costs, optimize and deliver the right service levels by application, and provide the right level of software, or in today's business vernacular, "do more with less" - which is where **Microhard Services Pvt. Ltd.** software products fit into the corporate IT structure. Achieving...
