

Mittal Pigments Private Limited

<https://www.indiamart.com/mittalpigment/>

Manufacturer of metals, industrial chemicals, additives, stearates, stabilizers and catalysts.

About Us

Mittal group was incorporated in 1991 while the family's history of being in the zinc oxide industry goes back to 1969. At that point the core area of interest was the zinc oxide business. Over the years, with innovation & the zeal to grow , the company forayed into other areas, one such area being the metal industry.

Mittal Group is renowned for setting impeccable quality standards while offering committed service. Our deep rooted beliefs have enabled us to strive for leadership through excellence in every step of the organisation's culture.

MITTAL group comprises of ten companies with production facilities at Kota(Rajasthan) & Kathua (J&K) . It flaunts a diversified product range of 32 products & enjoys a sizable market share in India, Africa, Europe and rapidly developing Asia Pacific region.

The company displays an exquisite blend of expertise and innovation in the field of Chemical & metal manufacturing. The commitment to cater every specific demand has always driven the company to stretch it's horizon and deliver customer delight.

At Mittal group , we strictly adhere to the application of best management practices & comply with the law and ethics to achieve the Company's objectives; aimed at enhancing customer value and discharging our social responsibilities. Our group companies are directed and controlled by a systematic process to enhance their wealth generating capacities. Our Governance process ensures optimum...
