

# MMP Filtration Private Limited

<https://www.indiamart.com/mmpfiltration/>

We are leading manufacturer and exporter of a wide range of filtration products such as flow meters, TDS meters, air filters, FRP tanks etc. They are widely appreciated for delivering peak performance in filtration across industries.

## About Us

Incepted in the year 1954, **MMP Filtration Pvt Ltd** has come a long way in manufacturing and exporting comprehensive range of filtration products. We have registered consistent rate of growth as a part of the corporate group 'The House of Todi' under our flagship firm **M/s. Manoharlal Mahabirprasad**.

Over the years, we have diversified our range of filtration products like pressure gauges, dust collectors, etc. by establishing successful collaborations with some of the pioneering companies the world market which provide us high quality filtration components, air filter gauge and improved technology. Further, we have segregated our manufacturing activities into two broad segments including liquid and air filter divisions.

Our head office is located in Kolkata, India with branches in Mumbai, Chennai, Ahmedabad and New Delhi and we are planning to expand our distribution network further. We are also engaged in import and export of various filtration products from Europe, USA and South East Asian countries by specifically focusing on the import of air and liquid filtration products in order to cater to the needs of Indian sub-continent.
