

Modex International

<https://www.indiamart.com/modex-int/>

Manufacturer of motorcycle parts, clutch hub, kick shaft etc.

About Us

modex international was promoted by mr. Manjit singh as a proprietary concern in the year 1987 with the main objective of doing business in international markets. Mr. Manjit singh is a science graduate having vast experience in the manufacture and marketing of automobile spare parts. He has travelled widely in many over-seas markets for the business promotion of its products.

modex international has a well established production line in ludhiana for the manufacture of automobile spare parts of international quality to meet the requirements of its overseas customers. Ludhiana is the industrial hub of india which is connected with air, national highways and train, ludhiana has an airport and railway station that cater to the needs of international customers.

modex international started its international business in the year 1987. It is very successful in its objective. During the years of its existence, it has been very fortunate to develop a vast dealer network in many overseas countries and established its own place in all markets for its products. The items under the production range of modex international is conforming to international standards and it is well accepted by all its dealers for its better quality, super finish, competitive prices and accomplished services.

mr. Manjit singh is assisted by a team of dedicated and professionally qualified executives and technicians in his endeavour to manufacture better quality products of...
