Moscow Machine Tools

<https://www.indiamart.com/moscowmachinetools/>

We are one of the most reckoned **Manufacturer** and **Supplier** of a wide range of high speed flexible converting machinery like Rotogravure, Coating & Lamination, Slitter Machines and many more.

About Us

Established in the year **1980**, we **Moscow Machine Tools** have come up as a prominent manufacturers and suppliers of a wide range of **Industrial Machinery**. Range of products being offered by the company includes **Rewinder Machines, Rotogravure Printing Machines, Lamination Machines, Cantilever Type Duplex Slitter Cum Rewinder Machines** and others. As a Sole Proprietorship (Individual) firm, we have been successful in creating a distinct niche for ourselves in the industry. Working on the directives and guidelines issued by different authorizing bodies, we have been doing well in the industry. The confidence gained due to long industrial presence has always been supportive enough for us in sufficing the needs and demands of clients from different industrial segments. Our products are designed and developed using latest machines and high quality components. The components and raw materials used in making of our products are sourced from reliable market vendors. All our work of production is controlled and executed in our Ghaziabad, Uttar Pradesh based plant. Before development of any machine in our production unit, the design and circuit engineers prepare a fine layout and blueprint of its development procedures and further the quality analysts take care of the development and quality control requirements of these machines. **Mr. Amjad Khan and Mr. Saghir Ahmed (Director)** are the two men behind the success and development of our...
