## About Us

MSPL Gases Limited was founded by Baldota Group under the able leadership of Late Abheraj H Baldota in 1983 with a focused attention on Mining and Steel Industry.

The Company started with a 140 cum per hour Plant installed at 140 cum per hour Liquid Oxygen Plant at Hosahalli near Munirabad Railway Station in 1983.

The Company has developed pioneering and innovative explosives under a brand name VILOX to serve Mining Industry with safe and environmental friendly explosives.

We have innovative and customer focused Management, with people who have vast experience in the Cryogenic field to provide tailor made solutions to the industry at large.
